Projects

AI CRM Assistant [🔗](#), *React.js, FastAPI, Python, Redux Toolkit, Axios*

- Built a full-stack AI-powered CRM assistant for healthcare interaction logging, combining voice input, NLP, and automatic form extraction to cut manual data entry.
- Engineered REST APIs in FastAPI and connected them to a React front end using Axios and Redux Toolkit for predictable state management.
- Deployed and maintained a live full-stack app (Vercel + Render), handling the complete build-to-deployment pipeline independently.

Smart Study Planner [🔗](#), *React.js, Vite, Tailwind CSS, Context API*

- Designed and built a productivity web app for task management, Pomodoro-based focus sessions, and performance tracking.
- Built an interactive analytics dashboard visualizing study streaks, productivity metrics, and progress over time.
- Implemented calendar scheduling and local-storage persistence for a seamless, session-independent user experience.
